Build your most successful student body ever.

Increase student participation and achieve more successful outcomes on high value institutional initiatives and college-wide strategic goals.

Improve student participation, assessment, and create Experiential Learning Records.

- Connect and centralize every experiential learning activity, from events to High Impact Practices.
- Better track and assess co-curricular engagement against Student Learning outcomes.
- Implement a competency-based Experiential Learning Record (Co-curricular Transcript).

Attain better outcome data on student retention and persistence initiatives.

- Construct an intentional First Year milestone that students can also track on their mobile devices.
- Provide all first year students with a personalized road map of key experiences to complete.
- Leverage unique FYE data to analyze and predict retention or persistence factors.

Elevate student success by scaffolding competency development and career readiness articulation.

- Build clear student pathways to developing core skills and competencies.
- Help students tell their story and celebrate their accomplishments.
- Unite academic affairs and student affairs through a set of core competencies.

We help schools construct their first Student Development Program (SDP) or enhance an existing one. SDPs enrich the student experience and offer students a blue print to success.

Catalog all of your experiential learning activities (events to HIPs).

Personalize and integrate existing opportunities to drive awareness.
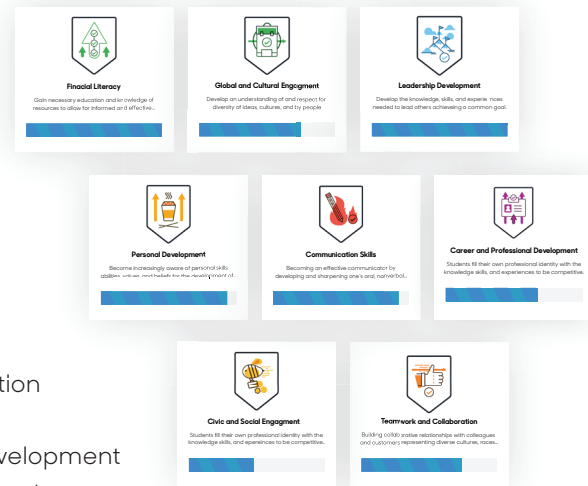

- Study Abroad
- First Year Experience
- Advising & Career Services
- Student Organizations
- Residence Halls

- Academic Units
- Community Service
- Research Opportunities
- Mentorship Programs
- And many others!

Residence Halls	First Year Experience	Study Abroad
Academic Units	Student Orgs	Mentorship Programs
Advising & Career Services	Research Opportunities	Community Service
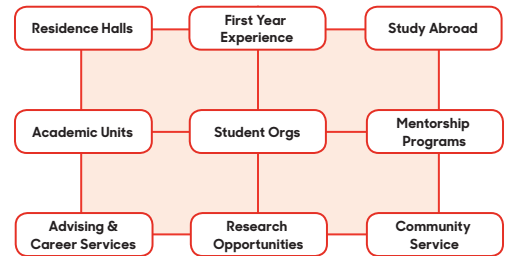

Define competencies to help communicate value and articulate career readiness.

Teach students how to think about their experience so that they understand why they should participate and how it has helped them.

- Leadership Development
- Global/Cultural Awareness
- Communication Skills
- Financial Literacy
- Critical Thinking/Problem Solving

- Career Preparation
- Teamwork and Collaboration
- University Pride
- Sense of Self/Personal Development
- Civic and Social Engagement

Financial Literacy — Gain necessary education and knowledge of resources to allow for informed and effective...

Global and Cultural Engagement — Develop an understanding of and respect for diversity of ideas, culture, and by people

Leadership Development — Develop the knowledge, skills, and experience needed to lead others achieving a common goal.

Personal Development — Become increasingly aware of personal skills, abilities, values, and beliefs for the development of...

Communication Skills — Becoming an effective communicator by developing and sharpening one's oral, nonverbal...

Career and Professional Development — Students fill their own professional identity with the knowledge skills, and experiences to be competitive.

Civic and Social Engagement — Students fill their own professional identity with the knowledge skills, and experiences to be competitive.

Teamwork and Collaboration — Building collaborative relationships with colleagues and customers representing diverse cultures, races...

Customize our "Levels of Proficiency" assessment rubric.

Institute an intentional, consistent, framework for assessing experiences and Learning Outcome Achievement while introducing aspects of gamification so students can also visualize their pathway and measure progress themselves.

Level 1 – Exposure
Level 2 – Interaction
Level 3 – Participation
Level 4 – Expertise
Level 5 – Mastery
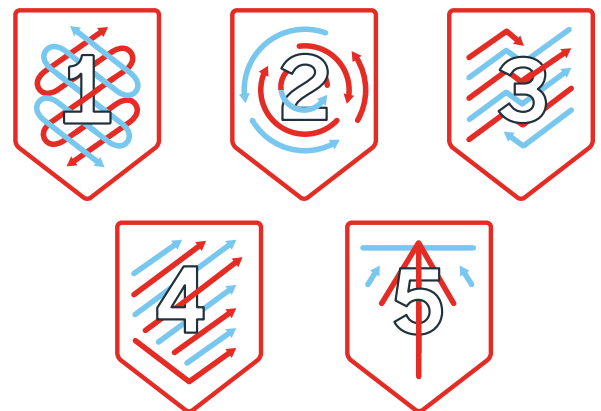

Students track their progress through an unparalleled mobile experience.
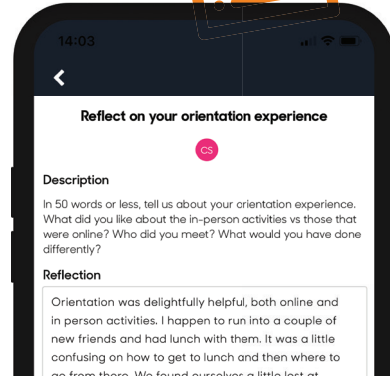

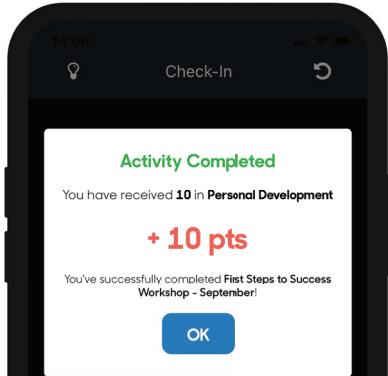

Modern Event Check-ins

- Eliminate lines, making the check-in process more efficient.
- Improve event coverage; track more events with no scanner limitations.
- Easier to scale, admins require no training, they simply display the code.
- Real-time feedback for the student.
- Active engagement, students are pulled back into the app to check-in.

Self-guided Reflections

- Prompt self-guided reflection via custom prompts.
- Elicit learning and qualitative feedback at depths of your choosing.
- Prompts can be tuned on the fly.
- Enables the capturing and self-reporting of other experiences on or off campus.
- Remove engagement barriers – students can reflect on the go (on the mobile app).
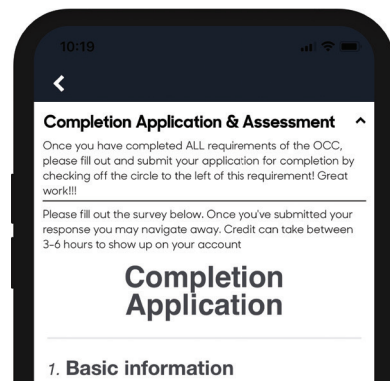

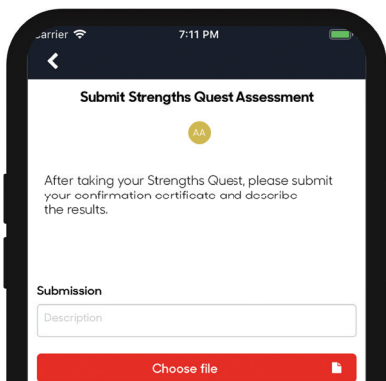

ePortfolio Submissions

- When evidence or documentation is the best proof.
- Incremental, streamlined, and guided development of an ePortfolio. Not a "one time" approach.
- Take any standard media/file type, as well as link-enabled submissions.
- Allows for inclusion of independent documentation.

Structured Reflections, Assessments, Forms, and Dynamic Surveys

- Embed robust formats directly into Suitable's interface.
- Deliver structured and detailed assessments of learning or satisfaction.
- Provides portal to digitize and centralize critical forms or surveys.
- Increase response rates.

Create a seamless experience and drive even greater results when you lend a hand. Our robust admin tracking capabilities let you add valuable coverage to what students are already tracking on their own.

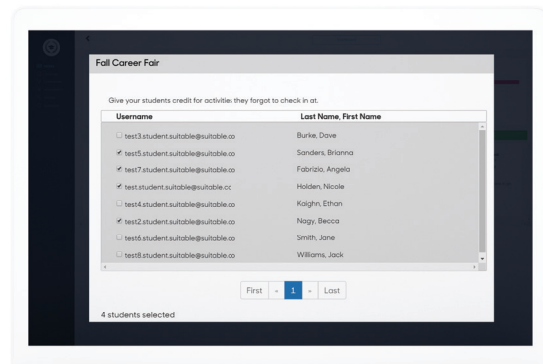

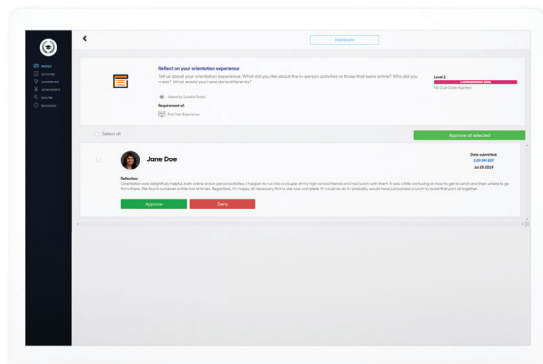

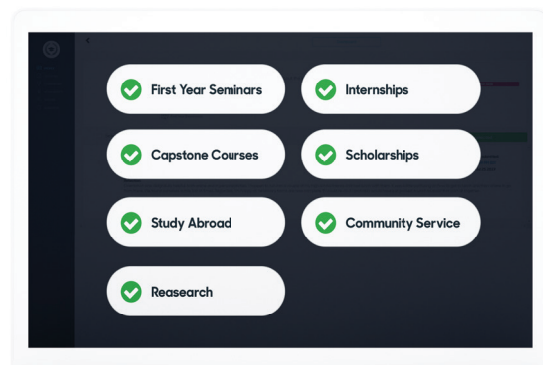

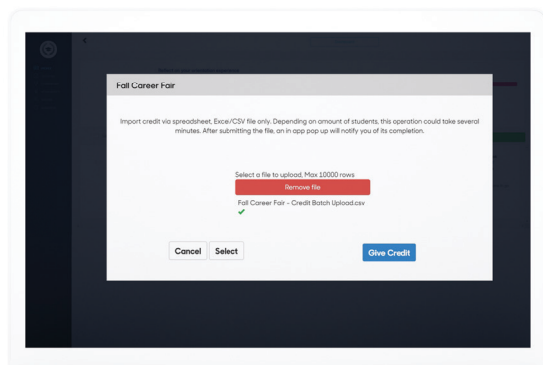

Experience Approval

Ensure validity with our streamlined experience approval and verification workflows that are easy to use.

Manual Entry and Check-ins

Award credit manually through the admin portal. Simply open up the activity or event in Suitable and find the students who need credit. That's it!

Batch Import

Upload large lists of students who need credit for an activity or event with our intuitive batch import functionality.

Data Sync

Pull in completion data from other existing systems to update student progress on Suitable. Credit-bearing or not, we can sync it.

Our implementation team is devoted to your success
and our resources are available around the clock
to serve you.

Dedicated University Success Consultant

- Guide you through our 3-step process to successful launch and adoption.
- Coordinate all staff and admin trainings for life of the partnership.
- Aid in student awareness by assisting with marketing campaigns and outreach activities.
- Ongoing review of program strategy, development, and improvement.
- Keep you up to date on key insights and best practices from our community of university partners.
- Direct line of contact via call, text, and email.

Dedicated Integrations Specialist

- Set up critical path integrations and assess additional integration needs.
- Assist with all data migrations from existing platforms.
- Collaborate on custom reporting and data extraction or analysis needs.

24/7/365 Access to Support and our Community

- Detailed "how-to" guides and documentation on every feature.
- In-app chatting for troubleshooting problems in the moment.
- Email hotline at support@suitable.co for more detailed inquiries.
- Invite to our annual user summit in July 2020.
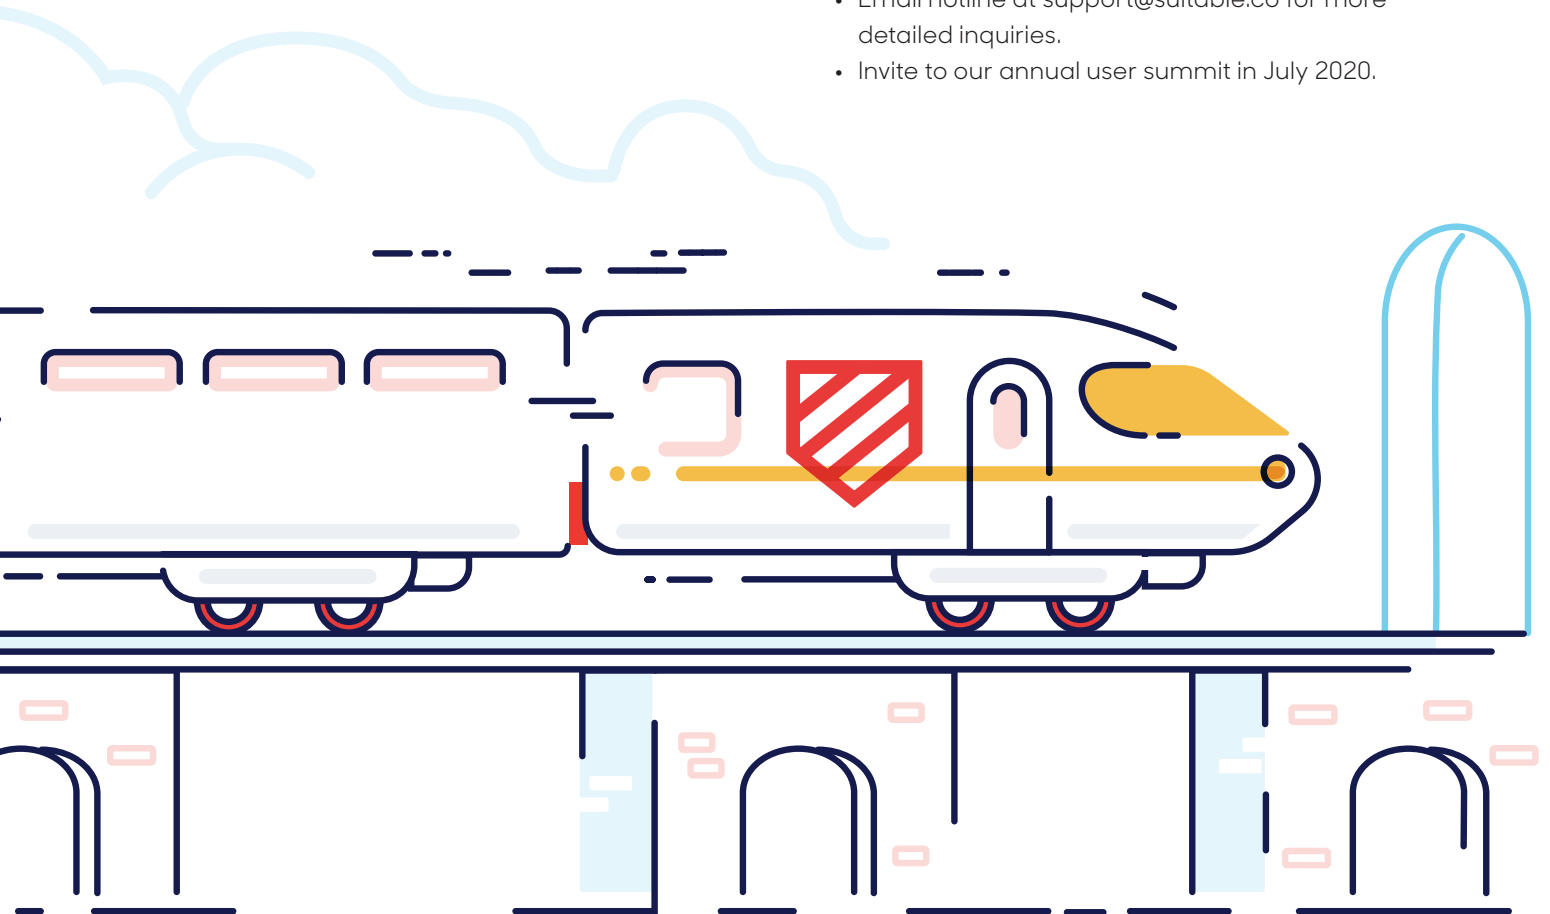

Your success means everything to our team. That is why we have a proven track record at the schools we work with. We go above and beyond to serve you.
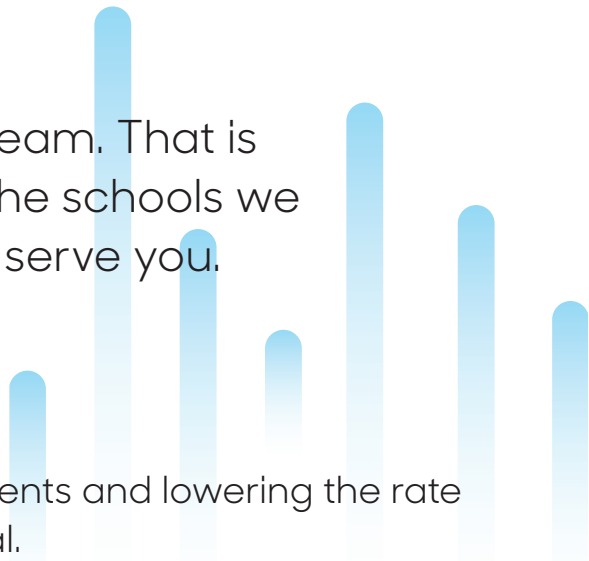

Retaining more students and lowering the rate of course withdrawal.

After transitioning from their old technology platform to Suitable, Montclair State University was able to figure out what was working and not working when it came to their First-Semester Experience. Montclair State University was able to associate specific First-Semester participation data with significantly higher rates of retention. Further, Montclair State found students who completed the entire First-Semester Experience milestone on Suitable were retained at a rate 10-15% higher. This unique participation data also led to correlations on the impact certain First Year experiences have on course withdrawal rates.

Developing core competencies and articulating career readiness.

SOAR is a competency-based program ran out of the Advising & Career Services office at UW and is comprised of high impact experiential opportunities that will engage, shape and prepare students to meet complex challenges in the future. We are aiming to implement 11,000+ Experiential Learning Records over the next few academic years with a specific goal of 25% of Seniors by 2022. Over half of the pilot cohort of Freshman participated in the first year of the partnership.

Improving student success and their time to graduation.

More students have participated in the OCC than ever before, allowing the University of Pittsburgh to analyze a considerable amount of data on their experiences. Since transitioning to Suitable, OCC completion rates have increased over 40%. Through analysis Pitt found that their students who complete the OCC are more likely to graduate and do so with a higher GPA than students who do not complete the OCC.

Join our rapidly growing community of progressive schools who are also delivering intentional pathways to student development and success.
